

Run: 1808
Date: 30-1-23
Hare: Lifer
Venue: Vera Drive

15 true hashers braved the rain to chat, bucket mind, walk and short cut. The run was amazing with only one following the trail ...Handy our true athlete... the other slack bastards short cutted or stayed mindful the bucket.

The trail was set Lifer and Rear Ender setting out before the sun came up setting an amazing trail clearly marked with paint, paper, flour and chalk .

The trail had everything creek crossings, scrub and only we got to walk it. I must admit Even though our fellow Hashers didn't follow our amazing trail we did and enjoyed our unique fitness levels.

The Hash tucker was served.... little boys, quiche and mini spring rolls, followed by Tuna and Vegi pasta. Most agreed they prefer meat.

Circle was called .. by our RA giving the orders that we could sit, however Flaps thought this was not appropriate, wanting all to stand which resulted in Flaps being SOW

Cumz and Goes looked after mummy and had a down as mummy needed more wine.

Shitty run according to Centerfold scored a 5 or maybe minus 5. The only true athlete Handy thought the run was a 10.
