

Run: 1809

Date: 6-2-23

Hare: Dangles

Venue: Boronia St Park

We started with 12 happy hashers and then Hairy arrived as the mob set out on the Run; good to see her, though almost late Hairy caught the mob at the pass, well done. There were no hills until ADD decided to send them up to the HillTop cafe, then on over and down to 11th Ave and so on. It doesn't seem like a big hill until you're half way up.

Needless to say ALL made it back home.

Our illustrious RA scored the run an 8. Thank you kind Sir.

PB None because we are a Dull bunch

GB nothing to report as we are still planning the next round of happenings. Don't forget the Tin Can Man run in a few weeks, more details to come

CHARGED 🐮🐮

To Pharlap and Handy for not stopping at the All Halt .

To Flaps for not helping JFI, but this was reversed back to Hairy and for the life of me I can't remember why or what Hairy had to do with it.....

Grey Rooter to Flaps was reversed. It should have been Darcy so all 3 got a down ...we all need to be wary of giving a down as they often backfire.

Handy for using street names

Darcy charged JFI for complaining about the Blokes at B.O She should know what happens at Hash stays at Hash and it was Blokes Only hash so who gives a....
