

Run: 1830
Date: 3-7-23
Hare: Lifer
Venue: Vera Drive

No note taken so here is my version,
Not a drop rain for those who walked. so that was a plus, the walkers had a nice little drink before taking off on a 5 k walk. The walk was around the Coffs sub division. Dogs letting them know that they were trespassing, keeping neighbours aware that some old people were stalking their neighbour hood. The trail had a lot of twists sometimes on road and the rest in green belt. Many thanks to Rear Ender for helping with the well marked trail. Lesson learnt On home to be well marked.

So much food soup, cob loaf, spring rolls, tuna bake and chicken pasta...for those that didn't like the fishy stuff, mainly for BRONCO who did state, not tuna. Lesson learnt never cater for everyone, as the G.M starved, fortunately others enjoyed the chicken pasta.

Circle called by our wonderful RARun deserving **-9** an awesome score.
