

Run: 1832

Date: 17-7-23

Hare: Hot Property

Venue: Brunswick Ave

Run Report – 18 fabulous hashers set off on grand adventures, through forest, bike tracks and over Macauleys Headland to discover the drink stop inside the coolroom at the Hoey Moey bottleshop and then back through York Street to the shortest “ON HOME” on history on the driveway of the run venue. This week as well as walkers and runners we also had BEERHUNTERS – a walking group who went directly to the drink stop and back. YAY!

The run score changed quite a few times – taking into account the slippery trail, lost hashers, food, fire bucket and the confusion of where the drink stop actually was but in the end it seemed to be about a 7/10 (pew – at times it went down to 3!).

SHIT OF THE WEEK went to Beaver Eater for smoking out the circle with the adding of water and wood to the fire bucket just before the circle

Returning and Visiting Runners – there were quite a few (including Pharlap, GDay Gday, Visiting CL and) and they all had the yummy drink lovingly prepared by the RA to welcome them back / visiting.

Charges for hats in the circle- CL and Thunderbox

The RA then called for charges – lots of discussion but then no one had any solid charges (some suggested charge the

RA but this backfired on them later on when we had some charges leftover)

Awards –

Darcy awarded the “Two Dicks” to Beaver Eater and Hot Property for being cute

BJ gave Pharlap the dick award to help with his disks
