

## **Subject:** Monday night stroll and bbq

On a chilly Monday evening 13 die hards turned up for a leasurely stroll around the lower jetty area. We met at the bbq area near the surf club car park, then headed out for what appeared to be an easy walk. When these intrepid walkers returned there was discussion on the size and difficulty of the mountains and valleys that they had to breach. Not only that the snow that fell was almost blizzard like in strength. No wonder On Heat was back first. She has no head for heights.

After run, drinks and nibblies started then not long after, the bbq, having been pre heated, produced mouth watering beef patties and chicken snitties. All the while being lovingly prodded and turned by Masterchef Dangles. Served on buns with salad and enjoyed by all.

GM Lifer called the circle to order.
