

Run 1704

01/02/2021

Rear Ender

19 runners, walkers, bucket minders and others flocked to 4 Mackays Road to participate in Rear Enders run. Thankfully while Rear Ender slaved over the stove Grey Rooter did all the other tasks associated with setting a run.

Though some thought the Chilli Con Carne was a little spicy others revelled in the heat and while Darcy enjoyed the dessert he would have preferred apple instead of peaches.

Those who completed the run thought it was well marked and as advised at the start of the run, "there were no hills" but the inclines were not too steep.

Shit of the Week was Forrest. As usual he had many complaints and his running mate, Darcy, had a sore ear by the time they'd finished the run

Returning runners were Forrest, Tic, JFI, Flaps, BJ, and Lifer...or Hairy as investigations are ongoing!!

Downs went to Hairy for being too quiet at Quickette's run so that no one knew she was there.

Flaps for leaving his Harem behind and therefore making Grey Rooter take over all associated responsibilities

Slippery for making Rear Ender and On Heat look stupid at Water Aerobics.

Reverse charge to On Heat for something...I was too busy singing and didn't catch it.

Awards went to Hairy, Hairy, Hairy and Hairy. These were for many and varied reasons, some true others not so. This what happens if you stay away too long.

Bronco for being a prick and giving dirty looks.

BJ got the bolt award for some obscure reason.

PB Some Hashers shared a birthday drink in memory of Crafty.,

Curly had a phone call to Dangles, and is doing well while, swinging in his hammock.

GB ADD and Dangles are off to QLD to see a new grandchild for the first time.

Fire bucket for sale...resulting in a domestic between Slippery and Bronco!
