

## Lifer...12/4/21

I believe approximately 15 amazing hashers turned up to what I can certainly say was the best run of the century. Hey you slack bastards that didn't turn up Shane shame shame.

Allo Allo and Metro to name a couple... what happened? Said you were cumming but no show. However more food for the hashers who did cum.

The run was set by Cumz and goes and Rear Ender due to Lifer unable to set her run. Lifer had a little problem and needed some help, apparently there was a problem with a stiff joint or something.. Thanks so much Rear Ender and Cumz and Goes greatly appreciated.. The run was well marked with several twists, around the Bray Street, Perry Drive and Mackays Road area. Than of course the heart and lung section of Vera Drive the on in.

Nosh.... pea and ham soup, sausage and vegetable hot pot, and than of course the famous tuna bake..... yay made by Cinderella. Sure.....all Lifers doing. Plenty of nosh for Pharlaps take away meals,

SOW..... Hairy always bitching about something, this time about not having anyone to help with her run, course she's single. Not like Hairy to whinge. Well deserved.
