

Luckless 3/05/21

19 Brave athletes formed a cluster, putting the Hare into a fluster. Most were concerned for what awaited them, usually mud, glorious mud, and off the beaten track. But no, the Hare took pity and sent them on a safe trail.

Off they ventured on a very mild night into the rabbit warren, known as Boambee, all returned safe and sound.

Heartfelt thanks to the 2 Rels/Hashers going out to add to the meagre food supply on offer. The Hashers had their fill and enjoyed the usual bullshit.

Returning Runners: Too many to mention.

Quickette also mentioned that Central Coast will be holding NASH HASH in 2023, so to plant the seed, it would

be a great if our club rally around and organise some Pre Lubes for the Hasher migrating south for the event.

Along with the Hash Relay to be held in Port Macquarie and try to get a team together to represent our club.
