

## **Pharlap Memorial Run 7/06/2021...Jetty Foreshores**

13 Lucky Hashers turned up for the Memorial run at the Jetty. A fresh winters night greeted us as the Instructions were given for the run/walk around the Jetty out to the Porpoise pool and back. Lifer and Bronco were the first back because Bronco was complaining about his knee and Lifer had to help him back. The rest of the pack came back in dribs and drabs with Handy and Boltarse the last to arrive..(maybe the only ones to complete the whole run)

Pharlap served a beautiful meal of Lasagne and Potato salad and coleslaw...with a special treat of carbon garlic bread..(never put garlic bread on the bottom of a gas oven...hahahh)  
Slippery called the circle and gave Thor the SOW award for complaining.. Pharlap downed as the Hare and setting a great run but ADD said the food was burnt to the shithouse...(it was only the garlic bread.)

Charges from the Floor:
