

Flapsy's (Flaps Up) Run – 26 July 2021

Run Number 1729 (I think)

17 pseudo runners (plus one late arrival with the second course of nosh) turned up at Park Beach. A very good crowd considering most had been on the road all weekend celebrating Christmas in July. Despite some pleading from Phar Lap for a longer (8km) run, the hare was only able to set a run half as long (4.3km). Handy must have done a different run as in her run report she complained about too many hills. (Remember, Flaps set the run and it was at Park Beach).

After gorging on dips, chips, soup and stew, our stand in RA (Phar Lap) called the circle. Showing his caring and sharing side and considering the winter temperature, he allowed hats and or head coverings in the circle. This decision was well received by those of us who are follicley challenged.

Shit of the Week – Metro. Arranged for Dangles to take him home after the bus trip and then accepted another offer. Dangles claims that it wasn't until it got dark did he realise that Metro wasn't coming with him and so he went home and sought solace from ADD

Charges

Lifer – finally pulling off a perfect Christmas in July

Quickie – playing at being a trainspotter in the circle.

Flaps – bullshit excuse for not attending Christmas in July

JFI – helping Flaps with the catering for his run. (Thank goodness I hear you all say)

Squawking Chook – Flaps and JFI. Chickened out of the bus trip at the last minute due to concerns about spreading Covid.
