

2 August 2021 – Adjacent the Surf Lifesaving Club

The Hash Religious Advisor did their job - not only did it stop raining, but the weather was tolerable – actually quite pleasant. The trail marks held out against the drizzle.

It was Anal Sunshine's debut. 18 hashers arrived for the alcohol and food, 14 of which were stupid enough to get sucked into the run.....OK, a walk! Greyrooter devised the most brilliant trail. Cumz 'n Goez gave Anal Sunshine strict instructions on how to cook the food. All in all, Anal Sunshine followed all these orders, impeccably.

Having successfully followed trail instructions, Anal Sunshine took heed of cooking instructions, and without delay. Nibbles were followed by a brilliant pumpkin soup (Cooked by Cumz 'n Goez – Anal Sunshine provided the ladle). Put to the test, he cooked hamburgers on the nearby BBQ which were enjoyed by all.

CIRCLE

The run/walk was a hit earning an astonishing 9/9 from Darcy's run report....OK then, 9/10. 'On-backs' and 'Checks' were included which were appreciated, apparently they kept the group together and everyone finished the 3.8 km trail within a respectable hour.

DOWNES & CHARGES

Flaps decided to sit in chewing gum; women were yapping on trail; Pharlap threw a tantrum that it was his birthday on 1 August 2021 (apparently it's the same date every year) and no one wished him a happy birthday - BTW Happy birthday Pharlap!; Lifer had a dummy spit.....once again.

All were awarded a coveted drink of sarsaparilla and Greyrooters' spit.

AWARDS

For Pharlap who threw a tantrum over his birthday, was awarded a Double Dick
