

Lifers Run...Run 1738

17 hashers turned out for this out door gathering.

The trail was extremely well set with chalk, paper and flour. Lifer and Rear Ender clocked up a 4.31 trail with only 2 hills. Alky and Handy and Pharlap the only 3 that completed this awesome trail. The others were short cutting bastards or slack, choosing to stay just cause they could.

Nosh started with Asian nibbles followed by Lifers Tuna Bake, Lasagne and salad. Over catered with hashers taking up the offer to have take aways.
