

Run: 1770
Date: 9/05/2022
Hare: Darcy
Venue: Aubrey Cres

15 hashers more or less, arrived at Darcy and Thor's abode knowing that there would be hills, the trail would be well marked, on backs included. No problem for our true Hash athletes. They followed the trail including our visiting Hasher Can Of from Border Hash. According to those that completed the run it was all of the above. What would you expect with Bronco and Darcy 3 cans later setting such an adventure around the hills and dale around Albany Crescent and the South side of Coffs. The run however was awesome with short cutters and the lazy bastards agreeing it was the best run ever. What's that song Bullshit.

A great team Darcy the run setter with help from Bronco and Thor the Chef.

The nosh was the best, Thor the amazing caterer excelled. Darcy's sausage rolls first class, chips, biscuits and dips as starters. The feast chicken, gravy, potato bake with fresh bread rolls, than cake to follow. A feast served for a king or Queen. Perfect.

Quickie called the circle and proceeded with the downs.

Downs to Thor and Darcy the Hare and the cook.
