

Run: 1803
Date: 26-12-2022
Hare: Darcy/Thor
Venue: Aubrey Cres

17 Hashers showed up more or less on time (Luckles) for a slightly past 6 start for our Christmas recovery run 🦶🦶. Hare, Darcy Dugan, had marked a varied, short course including pavement, dogs and bush. Visiting Runners Mark and Kween took off at a brisk running pace after we explained what the arrows were and how to follow them. Boltarse, Quickie and Pharlap followed at a respectable walking pace closely followed by another athletic group consisting of Dangles, ADD and Thunderbox the rest stayed behind to help Thor with the cooking. (Any excuse)

Everybody returned to Aubrey Crescent in the order they had left with no fatalities..Millie checked them all back in with a sniff....We then set about drinking and nibbling before Thor fed us with her usual gourmet selection of scrumptious food. (Everybody did notice the absence of our usual sausage rolls..just saying..😓)

Dinner was three types of meat, Chicken, lamb and pork, baked potatoes and carrots and pumpkin, potato salad, fresh green salad etc etc...enough food to feed an army of hashers..but wait there's more...Pavlova, trifle and custard and plum pudding for dessert...

Our assistant RA Darcy called the circle and everybody rolled up to their feet ready for the RA to guide us with his holy words.

Darcy Downed for the run as the Hare and he proceeded to tell everyone how it was such a well set and awesome run...I am sure he gave himself 10 out of 10. (Centerfold may have degraded that a wee bit)

Thor downed for overfeeding us....

Charges from the Floor were many and varied...Pharlap for street names again. Quickie and On Heat for something..and BoltArse and Cumz n

Goes....all well deserved I say 😂

New and visiting runners: Mark and Queen and 5th leg downed.

Birthdays: ADD and On heat

Awards: Squarking chook to Happy Endings because she was half asleep....
