On a chilly Monday nights daring dozen hashers turned up at club thunder BUT , there

Were no lights. A quick decision and reshuffle led us to a shelter near the barbie !

9 runners headed off on the trail, starting with a hill climb which must have take its toll.

After that it was all downhill following the yellow chalk road.

Nibbles were laid out for the runners who were back quickly.

Pharlap announced the run distance as 1.75km. Heartlidge problems I think.

Dinner was dished up consisting of chilli 🌶️ con

carne,cheese'n'spinach pie and BBQ 🍗 chook with coleslaw.

A circle was formed and luckless was given SOW award and given a down . The hare had a down and on heat as a returning runner . Bronco Simon and Thunderbox got a down for not running . A bit tough as I was the babble'n 'brook.

Charges - luckless got one for wearing a cap in the circle , and then another. Rear ended and grey for something to do with wheelie bins.

General Business - Rear ender and grey rooter also had a down to celebrate 🎉 their 50th wedding anniversary to hearty congratulations from all present. New shelter to be known as club thunder east.
