

Run: 1831
Date: 10-7-23
Hare: Bronco/Slippery
Venue: Aubrey Cres

Well what can I say, the numbers were short – only 13 Hashers gathered at Aubrey Crescent. Well this isn't strictly true – Simon arrived back from his overseas jaunt and promptly left before the food as he wasn't feeling well. Luckily Thor arrived late to take his place. Technically there were only 12 at any given time but I'll take the numbers anywhere I can get them.

The run was short, more a leisurely stroll for those who went out. This was reflected in the RA's Run Report. He agreed it was well marked but took marks off for Bronco trying to send everyone to the site of a recent axe murder – the blood was still on the ground! The food was given the big thumbs up – mainly for the quantity, given that the catering was based on 18-20 hungry souls. So eventually a pleasing positive 6 was the final score (nice to be out of the negatives!!!)
