**HAPPY NEW YEAR 2024!!! – 1/1/24 – SLIPPERY & BRONCO**

**RUN No: FOK KNOWS (or does he???????)**

So much for most hashers being away for new year...22 hashers fronted up despite their festive season burnout for what they hoped was a flat, short and shiggy-less run, set by Bronco. Well, they weren't totally disappointed as the Hare decided to look after them. It was short, there was a drink stop, there were short-cutting options, it didn't have shiggy (surprising really after 12 inches of rain) but alas, there were hills – the first one being the driveway which proved too difficult for some hashers so they just minded the bucket.

The drink stop was at Darcy & Thor's place but the bastards weren't even home!!! Bronco poured the drinks, Quickie watered the grass, then most of the runners turned around and went back home.

FOK came to the rescue of an injured lorikeet and managed to get it into a box to take home and look after. Latest is FOK's bird is doing well and so is the lorikeet.

A relatively healthy spread was served up after the excesses of Christmas cheer – nibbles, ham, salad, wraps, rolls, mince tarts, etc, all the foods people haven't had for ages (ha ha).

**CIRCLE**

The circle was called and the re-elected RA commenced proceedings. The run score was originally given as 7 BUT that was adjusted after the RA's criticism of the lack of shiggy and that the on-home was too long for those who weren't locals. He complained there were no arrows to mark it. Bronco did point out that there does not have to be arrows after the on-home is marked, hence the deduction of a point arriving at the final score of 6. However, the food scored a 1 so the combined score was a 7.

**DOWNS & CHARGES**

- FLAPS – Shit of the Week – apparently, he volunteered because he is so used to getting it every week.
